# BUILDING YOUR DREAMS FROM ASHES TO MANSIONS

*We shape our buildings, thereafter our buildings shape us*

*Yeye yen adan, eno akwi no yen adan no ahyehye yen*

**Phoenix Knight Limited** is a dynamic engineering and construction firm that specializes in Architectural and Engineering designs, Project Management, and Construction works in Ghana. With commitment to excellence, we deliver innovative, sustainable, and cost-effective building solutions, schemed to meet the unique needs of our clients.

Backed by expertise in civil engineering and passion for precision, our team transforms concepts into realities, seamlessly blending functionality, aesthetics, and durability. From designing modern structures to executing large-scale projects, we prioritize quality, efficiency, and long-term value.

## Our Mission

We are dedicated to providing services in engineering and construction that we are proud of. Through sustainability, innovation, and excellence, we aim to rise above the competition and become a *societas sine qua non* in the engineering and construction business. We also aim to improve society and environment through charity and eco-friendly construction respectively.

## Our Vision

To be a leading force in sustainable construction across Ghana and beyond; delivering innovative, durable, and environmentally friendly solutions that shape a better world.

## ECSIS Principles

**E**xcellence

**C**lient-Centric

**S**ustainability

**I**nnovation

**S**afety & Quality

## Engineering Services

We provide innovative architectural and structural engineering solutions backed by solid civil engineering expertise.

From Concept to engineering designs and drawings, our works are functional, efficient, and tailored to client needs.

We also offer feasibility studies and technical reports to support informed project decisions.

## Construction Services

We execute a wide range of building works - residential, commercial, and institutional. Our team handles concrete, steel, and masonry construction with precision. We undertake renovations, refurbishment, and general site works.

## Project Management

From start to finish, we ensure smooth project delivery. Our services in project management include planning, scheduling, Bill of Quantity preparation, contract administration, and client coordination - keeping every project on time, on budget, and up to standard.

**Sustainability practices in construction**

**On - time, On - budget delivery**

**Integrated Design and Build approach**

**Modern Aesthetics with  
Structural Integrity**

**Quality with Safety work ethic**

**Your Vision, Our Blueprint**

## Design and Construction of a four-bedroom 2-storey building residential building

**Project Location:** Abesim, Sunyani.

**Project Scope:** A 2-storey building incorporating 4 bedrooms, a living area, dining area, kitchen, master bedroom balcony and WIC, 3 half bathrooms, and a full bathroom. It has a footprint of 120m<sup>2</sup> and a height of 7.8m above ground. The project features a hidden room and high vertical windows. A mechanized groundwater borehole supplies water to the facility.

**Project Status:** Ongoing construction

**Project Experts:** Project Manager, Structural Engineer, Architect, Electrical/HVAC Engineer, Quantity Surveyor

**Client Name:** Samuel Osei

## Design and Construction Services of an Ironing Hall

**Project Location:** OLA SHS, Kenyasi.

**Project Scope:** A 100 capacity Ironing hall with a meter room and changing room situated at Our Lady of Apostles' Girls Senior High School at Kenyasi. The building foot print is 180m<sup>2</sup> and a height of 4.2m above ground. It has fixed reinforced concrete ironing platforms with clearance of 0.9m from each board. The hall is designed to maximize natural ventilation and daylight to reduce heat trapping in the building.

**Project Status:** Ongoing Construction

**Project Experts:** Project Manager, Structural Engineer, Architect, Electrical/HVAC Engineer, Quantity Surveyor

**Client Name:** Our Lady of Apostles' Girls SHS, Kenyasi

**Funding Agency:** OLA Old Students.

## Design of a 2-storey Residential Apartment

**Project Location:** Odumasi, Sunyani.

**Project Scope:** A 2-storey residential apartment containing 14 single room apartments, and a mater's chamber. Each apartment has a bedroom, a kitchen, a half bathroom, and a balcony. The master's chamber contains a master bedroom, a kitchen, full bathroom, a living and dining area, and a balcony. The design footprint of the building is 432m<sup>2</sup> and 8.4m height.

**Project Status:** Completed

**Project Experts:** Structural Engineer, Architect, Electrical/HVAC Engineer.

**Client Name:** Gyamfi Moore Bright
